

Submission Instructions:

- Do not write anything in this pdf.
- Submit .asm code and screenshot in the Homework Submission→Homework 1 folder. Rename the .asm and output screenshot file according to your question number. (i.g- for question no 1, your file names should be 1.asm and 1.jpg)

Questions

1. ADD 3 integers using AX register and store the result in CX register.
2. Allocate first 5 even integers (starting from 2) in AX register and store their sum in CX register.
